

**560 Series**

**Panic exit hardware**

The Briton 560 Series is a modular system of push bar panic exit hardware suitable for timber or metal doors.

The 560 push bar unit can be used on its own as a single point rim latch device or with the addition of vertical bolts can provide multi-point latching for single or double door combinations.

Lower Side Pullman

**Certification**

- CE Marked to EN 1125
- Fire tested to EN 1634 for use on fire doors up to 2hr timber / 2hr steel
- DoP available at [www.britoninspec.co.uk](http://www.britoninspec.co.uk)

**Features & Functions**

- Robust construction with improved durability suitable for all heavy traffic applications.
- Technologically advanced design with proven performance and reliability.
- Shaped cross bar end piece to allow easier access to door lock.
- Suitable for doors with a minimum clear opening width down to 500mm. This can be reduced to 350mm where side latches are not required.
- Unique assembly reduces installation time by as much as 50%.
- Push bar and shoots can be cut on-site.
- Easy-to-use Accufit templates and back-plates for the individual panic devices and the pullman latches
- Patented Fast-Fix cable system replaces the conventional vertical rods to connect the operating unit and the pullman latches
- Fine adjustments of the cable system are possible in-situ for maximum accuracy during installation
