

Z304.1

Double Door Coordinator

Secure, code compliant coordination for rebated fire rated double doors

Why choose the Z304?

The Z304 Door Coordinator guarantees both leaves of self-closing doors close in the proper sequence, whichever leaf is opened first, ensuring secure latching and regulatory compliance for fire-rated applications.

Key benefits

- Ensures correct sequencing and positive latching every time
- Designed specifically for rebated pairs (timber or steel with flat tee astragal)
- Fire rated performance for greater safety and compliance
- Durable construction tested to 1,000,000 cycles
- Quick, straightforward installation — supplied with full fitting instructions and fixings
