

Briton

2003 & 2003V DOOR CLOSERS

The **UK's most tried & trusted**
door closer just got
EVEN BETTER

TRUSTED SINCE 1907

INTRODUCING THE **NEW BRITON 2000 SERIES**

The UK's most **tried and trusted** door closers just got **even better**.

Well known for its reliable performance year after year, with minimal adjustments and maintenance, the popular Briton 2000 Series has been further enhanced to ensure that it will continue to function efficiently for many years to come, contributing to the ease of access (2003V) and sustainability of your building.

- ✓ Certifire Approved, UKCA & CE Marked in all 3 mounting positions
- ✓ Tested to over 1 million cycles to EN 1154 for durability and reliability in our accredited test facility
- ✓ Grade 4 opening angle 180 degrees (defines the angle from which the device will close the door in a controlled manner) providing optimum flexibility in application
- ✓ Accufit self-adhesive fitting template in all door mounting positions to provide for quick, accurate installation
- ✓ Environmental Product Declaration and 100% recyclable box

CE

 certifire

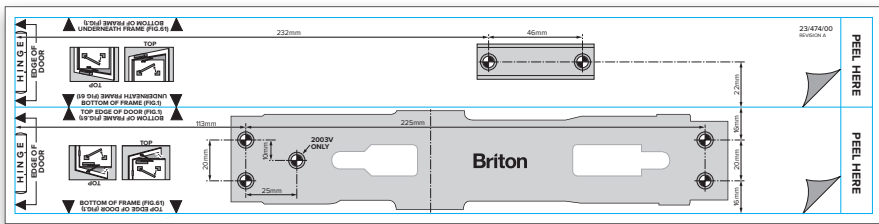

* *May be fitted to fully insulated steel based doorsets or uninsulated steel based doorsets where the closer is fitted to the fire risk face only.*

REASONS TO CHOOSE THE **BRITON 2000 SERIES**

EASY TO INSTALL

Accufit peel & stick template helps to overcome 95% of site and performance issues caused by incorrect installation whilst reducing installation time.

Template now provided for parallel arm and transom mount applications.

EASY TO ADJUST

With the **Briton 2000 Series** you can 'fine tune' the closing power and latch control by simply turning the valve / regulator to adjust to the required force.

When the situation of use and the door size and weight is not known opt for the **Briton 2003V** adjustable strength closer for a quick and trouble-free installation.

PEACE OF MIND

Briton 2000 Series comes with a Briton 10-year guarantee and the quality you would expect from the Briton brand

FIT WITH CONFIDENCE

Fully UKCA & CE marked to EN 1154 for use on fire doors.

Fire tested to EN 1634 and covered by Certifire accreditation.

Environmental Product Declaration in accordance with
ISO 14025 and EN 15804

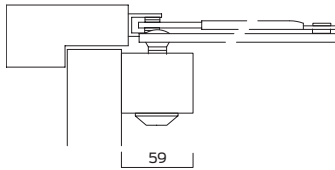

STYLISH TIMELESS DESIGN

Improved robust Classic cover with the **Briton badge of authenticity** conceals fixing and adjustment screws, and stylish flatform arm means the **Briton 2000 Series** compliments all door hardware.

- Suitable for doors up to 950mm wide and 60kg
- Adjustable closing speed & latch action
- Accufit self-adhesive fitting template for quick, accurate installation

PERFORMANCE BEYOND IMITATIONS

They say that imitation is the sincerest form of flattery. Since its launch the Briton 2000 Series has set new standards in performance, reliability, and durability which many have tried to copy. All Briton door controls are made to exacting standards and are scrupulously tested to ensure they maintain that Briton legacy. So, where lives are at risk, **don't compromise** on the hardware that could make all the difference – make sure you fit a **GENUINE BRITON CLOSER**.

Don't compromise safety when retrofitting

When it comes to retrofitting door hardware, it's easy to go backwards in quality. The scope of solutions available means it's easy to opt for products lacking the quality and durability required. It's important to check that replacements are like for like, and despite claims **no other imitation fits the fixing dimensions of the Briton 2003 and Briton 2003V Series identically**.

BE WARY

- Refer to manufacturers installation instructions and check fixing positions to ensure they align with the existing holes in the door and frame
- Be mindful that drilling more holes into a fire door could compromise the integrity of the door
- Double check footprint dimensions to make sure they are exact
- Be sure to check the DOP's, UKCA and CE certificates to make sure the mounting position is covered by legal requirements

About Allegion

January 2023

Allegion (NYSE: ALLE) is a global pioneer in seamless access, with leading brands like CISA®, Interflex®, LCN®, Schlage®, SimonsVoss® and Von Duprin®. Focusing on security around the door and adjacent areas, Allegion secures people and assets with a range of solutions for homes, businesses, schools and institutions.
