

Client:	Harper Adams University
Location:	Newport, UK
Products Used:	LCN Auto Equalizers

The University recognised that some of their staff and students would struggle to operate some of the doors encountered in the course of their normal daily routines.

LCN Auto Equalizers that can be activated in a variety of ways including wall mounted push buttons and wheelchair mounted fobs.

An added advantage is reliability and ease of service. A lack of reliance upon micro-processors and (often) complicated electronics means that the Auto Equalizer has much less opportunity for failure, cost effective and virtually maintenance free, Auto Equalizers were installed around the campus to provide occasional automatic opening for doors designed primarily for manual operation.
